

Money: Same and Different

2 nickels are different from 1 dime because they are different coins. But 2 nickels are also the same as 1 dime. They both equal 10¢.

Tell how the coin amounts are the same and different.

- 1 penny Same
and
1 dime Different
- 1 nickel Same
and
5 pennies Different
- 1 quarter Same
and
1 dime Different
- 3 dimes Same
and
6 nickels Different
- 25 pennies Same
and
5 nickels Different
