**Part B**

**Part C**

**Part D**

## **Unit 2: Operations and Algebraic Thinking, Part 1**

**PAGES 43–49 Lesson 5: Understanding Multiplication**

**Introduction, Think About It**

---

---

---

## Focused Instruction

- Multiplication problems can be described using an array.

---

---

---

---

---

- Carla picked peaches and put them in a basket. She carried 4 peaches at a time. She stopped when the basket was full. It took her 8 trips to fill the basket. How many peaches did Carla pick?
