

October 10 is a holiday in Japan. It is Health-Sports Day.

People stay home from school or work. They play sports or games.

Here is a Japanese game for you to play.

Kagome

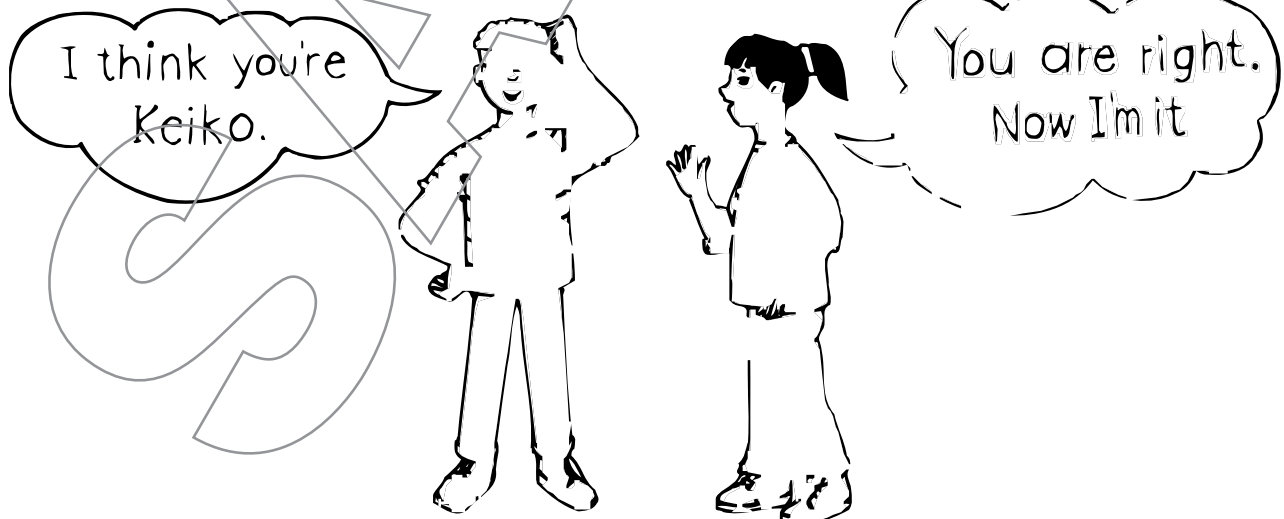

1. Children stand in a circle.
One child in the middle is "it."
"It" wears a blindfold.

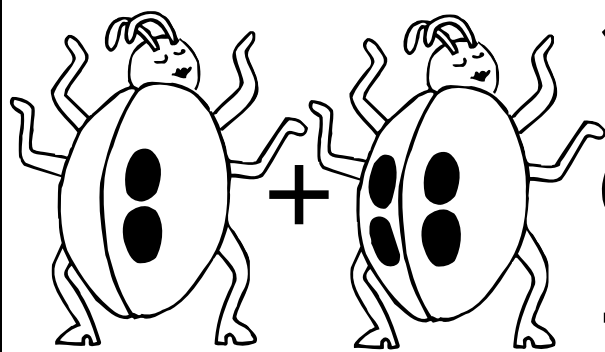

2. Play some music. Sing along.
Stop the music. The teacher taps a child in the circle. That child says "Who am I?"

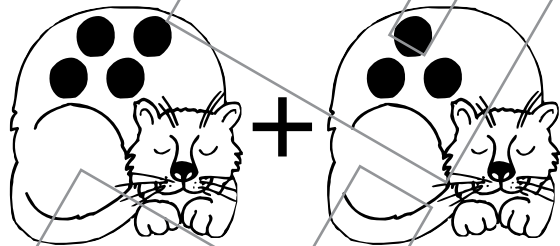

3. The child in the middle must guess who said, "Who am I?" If the guess is right, the child who asked the question is now "it." If the guess is not right, the child who is "it" stays in the middle. Play the game again.
