## Can bees talk?

- 1 Bees can talk to other bees. But they do not use words. They dance!
- 2 First, a bee finds something to eat. It takes the food back to its home. Then the bee does a dance. The dance tells the other bees where the food is. It also tells them how far they must fly. After the dance, the other bees can find the food.

Circle the right answer for questions 1–5. Write your answer to question 6 on a blank piece of paper.

1. Bees tell each other about \_\_\_\_\_.  
A food  
B words  
C honey
