# Feet and Yards

There are 12 inches in a foot.

One foot equals 12 inches.

A foot is a larger unit than an inch.

You use feet to measure medium things.

*A soda bottle is about a foot tall.*

There are 3 feet in a yard.

One yard equals 3 feet.

A yard is a larger unit than an inch or a foot.

You use yards to measure large things.

*A baseball bat is about a yard long.*
