A Snail's Shell.....	9

Snails have feelers on their heads.

Snails use their feelers to see and smell.

The feelers help them know where they are going, too.

*Land snails have four feelers.*

*Water snails have two feelers.*

# Where Snails Live

**Land Snail**

**Freshwater Snail**

**Saltwater Snail**

Some snails live on land.

Some snails live in fresh water.

Many snails live in the ocean.
