Read the poem. Then answer the questions.

## Moon Dance

by John R. Solis

- 1 Some nights the moon is an orange balloon,
- 2 Some nights it's flat like a mango.<sup>1</sup>
- 3 But when it's as thin as a yellow wax bean,
- 4 that's when Tanya dances the tango.
- 5 She tugs on her hat and hugs her cat
- 6 and holds her chin out proudly,
- 7 and they glide and slide through the living room
- 8 and up and down the hallway.
- 9 They nibble pink candy by candlelight
- 10 and dine on ice-cream sodas,
- 11 and play the radio loud all night,
- 12 and fall asleep on the sofa.

<sup>1</sup>**mango:** a yellow fruit that is sweet and juicy. It has a smooth skin and a flat shape.

1. What does the poet compare the moon to?
  - A a balloon, a mango, a wax bean
  - B a balloon, an ice-cream soda, a candle
  - C a mango, a radio, a hat
  - D candy, a candle, a bean

2. Which word rhymes with mango?

- A balloon
- B bean
- C tango
- D cat

3. Which line has rhyming words?

- A "They nibble pink candy by candlelight"
- B "and they glide and slide through the living room"
- C "Some nights it's flat like a mango."
- D "and play the radio loud all night,"

4. Which words start with the same sounds in these lines?

"They nibble pink candy by candlelight  
and dine on ice-cream sodas,"

- A they, by, dine
- B nibble, candy, on
- C candy, candlelight, cream
- D pink, ice, sodas

5. Why does the poet compare the moon to fruits and vegetables? Answer the question on a separate piece of paper.

21. Match each addition and subtraction sentence to its sum or difference.

$$451 + 129 =$$

178

$$283 - 105 =$$

182

$$164 + 97 =$$

261

$$509 - 327 =$$

580

22. Look at this array.

Which number sentences describe the array? Choose all that are true.

**A**  $3 + 3 + 3 + 3 + 3 = 15$

**B**  $3 + 5 = 8$

**C**  $5 + 5 + 5 = 15$

**D**  $5 + 3 + 3 = 11$
