

10 MUST-SEE WEBSITES

FOR PARENTS AND TEACHERS

ArtfulParent.com

Seamlessly incorporate art and creativity into your children's lives, encouraging them to bring out their inner artist.

FunBrain.com

Bright graphics and easy navigation make it perfect for kids to use alone, while they target reading and math skills.

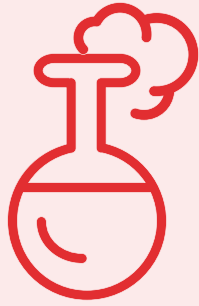

FreeRice.com

A great life lesson for kids! Their smarts can extend far beyond test scores to benefit those in need.

Code.org

Opportunities to learn are everywhere here, including "Hour of Code" courses that feature kid-friendly subjects like Star Wars, Minecraft, and Frozen.

ScienceBob.com

From cool hands-on experiments to science fair project ideas, this site encourages the budding scientists in every student.

PbsLearningMedia.org

The trusted name in public television helps bring your classroom to life!

TeacherTube.com

This commercial-free site is one-stop-shopping for videos on a wide range of instructional topics. You'll save time without having to search multiple sites for what you need.

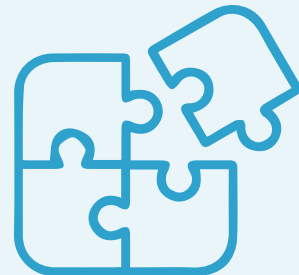

BeALearningHero.org

The parent-teacher partnership is vital to students' success. This bilingual site offers a host of tangible resources for both parents and teachers to help them be a more effective educational team.

WeAreTeachers.com

You'll find lots of inspiration here, from classroom tips for every grade to organizing ideas, games, grants and contests, and more.

TheMeasuredMom.com

This blog, created by a teacher with a background in curriculum and instruction, offers articles, hands-on lessons, and printables for teachers and parents.
