

8 WEBSITES TO EMPOWER GIRLS IN STEM

ThinkSTEAM4girls.org

Offers workshops and other initiatives to motivate and inspire girls to use STEAM.

TechbridgeGirls.org

Emphasizes the importance of equitable learning experiences for minority populations.

Witf.pbslearningmedia.org/collection/scigirls/

Provides half-hour long videos that follow a group of middle school girls as they carry out inquiry-based investigations with the help of scientist mentors.

GC3.edc.org

Allows girls to explore different STEM careers through videos, activities, games, and more.

WebAdventures.games

Provides web and app games that enable girls to immerse themselves in various STEM careers.

Edu.google.com/code-with-google/

Introduces students to coding through easy-to-follow videos with simple directions, making it perfect for students at any level.

EngineerGirl.org

Provides girls an in-depth look at engineering, watch interviews, develop an engineering goal of their own, and more.

CarnegieSTEMGirls.org

Offers activities, resources, and programs to encourage teenage girls to explore STEM skills and careers.
