What does this program do?

Finish Line for ELLs 2.0 gives students practice for taking the ACCESS for ELLs® exam given by the WIDA Consortium. Lessons are designed to improve performance across the language domains and familiarize students with tested item types. Components include student books, annotated teacher's editions & audio, and interactive eBooks.

Audio

Books
available

Grades 1–12

Written Explicitly for the ACCESS for ELLs®

- Books address **English language proficiency standards:** Academic Social Studies, Conversational Language, Academic Language Arts, Academic Science, and Academic Mathematics.
- Each unit focuses on a **language domain:** Listening, Reading, Writing, and Speaking.
- **Item types mimic those on the exam,** including multiple choice, short and extended writing tasks, and oral response.
- Each lesson has a **central theme** that ties to a content area in the classroom.
- Interactive eBooks provide an **authentic assessment experience.**

Instructional Materials for ELLs V2

WIDA PRIME V2 CORRELATION

Operations based on Academic Mathematics and Science.

Examples:

Grade Reading items from Unit 2 Lesson 11 where the academic standards are referred to below the
in the TE for this Intermediate level task.

What does Caleb use to draw?

Language Level	Performance Objective
Intermediate	Students will identify items given descriptions and visuals.

Question: *ELA, RI 1.7 Use the illustrations and details in a text to describe its key ideas.*

Writing task from Unit 3 Lesson 29 where students prepare to write about characteristics,
and contributions of 19th century historical figures and support their claims with evidence.

Student Book

Student books are available in print and eBook formats.

Print

Continental understands that technology isn't readily available in every school and home. To address this challenge, we've developed books in a printed format to give all students the chance for practice anytime, anywhere.

Interactive eBooks

Interactive eBooks combine student book lessons with web-based features to give students authentic assessment practice and allow you to track student performance and progress.

- 24/7 web browser access
- Compatible on all devices (including iPad iOS 13+).

Model Lessons

Each unit begins with a model lesson. Teachers can work through it with students to show them what's expected.

- **Printed books:** Students answer in the book or one-on-one with a teacher, depending on question type.
- **Interactive eBooks:** Students answer directly in the eBook for all question types.

The image shows two versions of a model lesson page for 'Animals in Our Neighborhood'. The left version is a printed page, and the right version is a digital eBook interface.

Printed Model Lesson Page:

- Header:** MODEL LESSON: Animals in Our Neighborhood. ACADEMIC SCIENCE. Includes a 'Speakers' icon.
- Section:** Pet Care. Includes two circular profile pictures of students.
- Text:** Many people enjoy having pets. Dogs, cats, rabbits, birds, fish are common pets. Some people have much larger pets, like horses. Pets can be a lot of fun to have, but they can be a lot of work, too. As a pet owner, you are responsible for taking care of your pet and making sure it gets everything it needs. Pets need to be fed and given water every day. Pets need a place to live and shelter. If your pet gets sick, you must take it to the veterinarian. Some pets need you to give them baths and keep them clean. Some pets, like cats, usually do this on their own.
- Section:** Pedro's Chores. Includes a circular profile picture of a student.
 1. Feed in the morning and the evening.
 2. Give fresh water every morning.
 3. Begin teaching puppy to go outside when it needs to.
 4. Play.
- Image:** An illustration of a man in a blue shirt standing behind a counter in a pet store, with various animals (a bird, a rabbit, a dog) in cages behind him.

Digital eBook Interface:

- Header:** MODEL LESSON: Animals in Our Neighborhood. ACADEMIC SCIENCE. Includes a 'Speakers' icon and a 'Back to Library' button.
- Section:** Animals in Our Neighborhood. Includes a circular profile picture of a student.
- Text:** Now it is your turn. What are two things that Pedro needs to do for the new puppy, Mia, what are two things that the puppy needs?
- Section:** Pedro's Chores. Includes a circular profile picture of a student.
 1. Feed in the morning and the evening.
 2. Give fresh water every morning.
 3. Begin teaching puppy to go outside when it needs to.
 4. Play.
- UI Elements:** A sidebar on the left contains icons for Contents, Activities, Bookmarks, Notes, Programs, Assessments, Settings, and Help. A top navigation bar shows 'Grade 4, Speaking: Model Lesson, Science' and a progress indicator '600 / 640'. A 'Save' button is visible at the bottom right of the page.

Unit 1: Listening

Students will listen to the designated information/passage and answer the constructed-response questions that follow. Items within each lesson grow progressively more difficult—from Intermediate, to Intermediate High, to Advanced—to promote skill proficiency.

- **Printed books:** Use the audio downloads or script from the teacher's edition. Students answer in the books.
- **Interactive eBooks:** Students listen to the built-in audio and submit their answers. Answers are automatically scored.

The image displays three overlapping views of a lesson titled "4 States of Matter" from an "ACADEMIC SCIENCE" textbook. The top view is a printed page showing a listening exercise. It features two student avatars at the top left. Question 1 includes an illustration of a seashell labeled (A) and a landscape with waves and a beach labeled (B). Question 2 shows two plates with ice cubes; the first has a single cube, and the second has a cube melting into water. Three multiple-choice options (A, B, C) describe phase changes of ice. The middle view is a digital screenshot of the same page, showing a navigation sidebar on the left with icons for Contents, Home, Homebooks, Notes, Highlights, and Settings. The right view is a zoomed-in screenshot of the interactive eBook interface, showing a student's profile, a diagram of a plate with an ice cube labeled "solid", and a question about the state of water. A yellow callout box indicates "The water changed into a gas and went up in the air." Below are three radio button options (A, B, C) and a "SUBMIT" button.

Unit 2: Reading

Grade-level passages are followed by constructed-response questions to test language proficiency and comprehension. Items within each lesson grow progressively more difficult to promote advancement.

- **Printed books:** Students answer in the books.
- **Interactive eBooks:** Students choose their answers. Answers are automatically scored.

Chunking the text like the ACCESS exam

18 Money ACADEMIC MATHEMATICS

Tony knows that a penny is worth one cent. A nickel is larger than a penny, and it's worth five cents. A dime is smaller than a penny or a nickel, and it's worth ten cents. A quarter is the largest of these coins. It's worth twenty-five cents.

COINS	
Coin	Value
	1¢
	5¢
	10¢
	25¢

1. Which coin is a dime?

 **A**
  **B**
  **C**

18 Money ACADEMIC MATHEMATICS

Tony finds some coins while he is cleaning his room. He added the values of the coins. The coins he found are worth 40 cents altogether. Then he put the coins in his coin jar.

3. Which coins could Tony have found?

A Six nickels and one penny
 B Five dimes and one quarter
 C One quarter, one dime, and one nickel
 D 20 pennies, one nickel, and three dimes

Grade 4 containing Lesson 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50

Which coins could Tony have found?

Six nickels and one penny
 Five dimes and one quarter
 One quarter, one dime, and one nickel
 20 pennies, one nickel, and three dimes

Unit 3: Writing

Students start each short or extended task by reading the information/passage and looking at the visual support related to the topic. They prepare their ideas by thinking about questions related to the prompt and plan their responses using an outline or graphic organizer. Finally, they create their writing using a checklist to guide them.

- **Printed books:** Students write their answers in the books.
- **Interactive eBooks:** Students type their answers in the books. Teachers use the built-in management tool to evaluate answers and assign scores.

Lesson 26 United States Government

ACADEMIC SOCIAL STUDIES

The Bill of Rights

The first ten amendments, or additions, to the Constitution of the United States are called the Bill of Rights. The amendments help to protect the people of the US from the government. The founders of America did not want the government to be able to take away rights that they felt belonged to everyone. Read more about the first six amendments.

The First Amendment says that people have the right to worship, to speak out, and to gather together peacefully.

The Second Amendment says that people have the right to own weapons.

The Third Amendment says that the government cannot force people to have soldiers live in their homes.

The Fourth Amendment says that a person, his house, and his belongings cannot be taken or looked through without a good reason.

26 United States Government

ACADEMIC SOCIAL STUDIES

The Fifth Amendment says a person cannot be put on trial for a serious crime if there is not enough evidence for the trial.

The Sixth Amendment says that a person must receive a speedy and public trial by jury in the area where the crime was committed.

Think about these six amendments. Why do you think these amendments are important? Why do you think that the founders of America wrote them? Write a four-paragraph essay describing why they are important and how they help the people of the United States. Use details to support your writing.

Plan Your Writing

Think about these questions to help you get ideas for your essay.

- What do these amendments allow me to do?
- How might these amendments affect other people?
- How can these amendments keep people safe?
- What types of things were happening to the American people when America was ruled by England?

26 United States Government

ACADEMIC SOCIAL STUDIES

Write a four-paragraph essay describing why the first six amendments are important and how they help the people of the United States. Use details to support your writing.

Grade 4 Writing, Lesson 26, Social Studies, Extended Task

Write a four-paragraph essay describing why the first six amendments are important and how they help the people of the United States. Use details to support your writing.

Paragraph

Save Submit

Unit 4: Speaking

In each lesson, students listen to the information read to them, look at the related picture or graphic, and listen to a model student answer before responding to a question. This sequence then repeats for a second question.

- **Printed books:** Use the audio downloads or script from the teacher's edition.
- **Interactive eBooks:** Students access the recording tool to submit their answers. Teachers use the built-in management system to evaluate answers and assign scores.

**Built-in recording
like the ACCESS
exam!**

The image shows two versions of a textbook page for Lesson 33, 'Health and Safety'. The left version is a printed page, and the right version is an interactive eBook interface.

Printed Page (Left):

- Lesson 33 Health and Safety**
- Staying Safe at School**
- Text: "Schools are places where you learn and grow. They are also places where you should feel safe. Here are some tips to stay safe when you are outside at school. Be smart when playing on playground equipment. Do not push others. Be smart when playing on playground equipment. Do not run in front of the bus. You also need to be safe when you are around buses and cars and going to school. When you are around buses and cars, watch carefully for traffic. It is usually easier for you to see buses and cars are doing than for the drivers to see you. Always look both ways before walking across parking lots and driveways. Listen to crossing guards. If you see anyone who does not follow the rules at your school, tell an adult right away."
- Illustration of a school playground with a slide and swings.
- Illustration of a school building with a crossing guard.

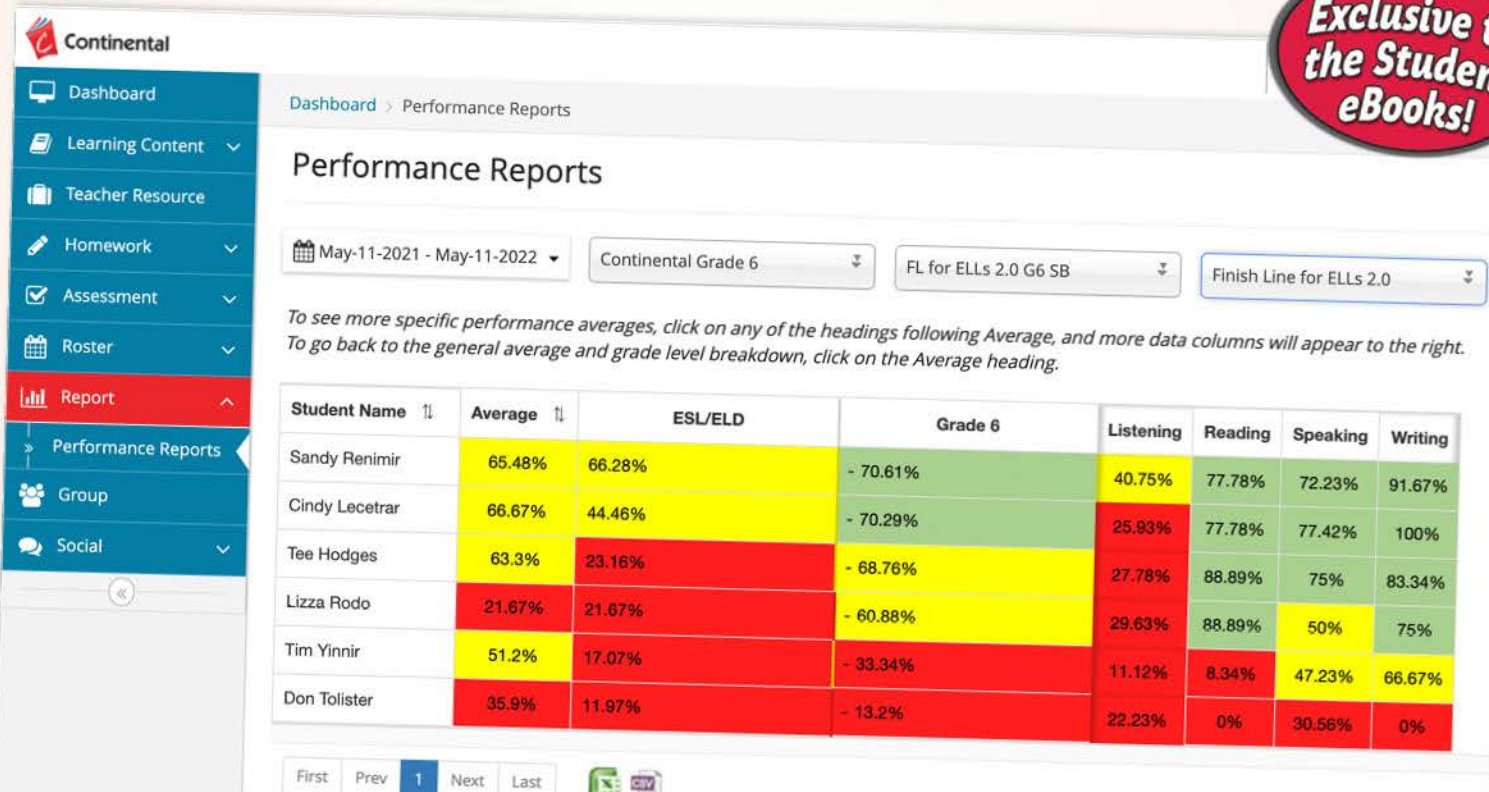

Interactive eBook (Right):

- 33 Health and Safety**
- CONVERSATIONAL LANGUAGE**
- Navigation icons: Home, Bookmarks, Home, Programs, Settings, Help.
- Question: "Mia, how can you stay safe when playing on the playground?"
- Illustration of a school playground.
- Question: "Now it is your turn. How can you stay safe at school?"
- Recording interface: "Grade 4, Speaking, Lesson 33, Conversational Language", "0:00 / 2:00", "Record Answer", "Save", "Submit".
- Illustration of a school building with a crossing guard.

Management and Reporting

The built-in management and reporting tool for the student eBooks allows you to:

- Manage students and classes.
- Score speaking and writing items.
- View performance reports to identify areas of need and drive instruction.

Listening and speaking scripts

4 State of Matter

Say: Look at number 1. Take a moment to look at the answer choices.
Pause about 10 seconds while students look at the answer choices.

Say: Now listen to Ivan and Rosita.

Ivan says, "We are learning about different states of matter in school. There are three states of matter: solid, liquid, and gas. I think we can find all three states here at the beach. The water is wet, so it is a liquid. It is fun to splash in the water. I can feel the sand under my feet. Sand is a solid."

Rosita says, "Look at this seashell. It is a solid, too. It is hard and does not change shape. We need to find an example of a gas. The wind is really blowing my hair. Oh, wait, air is a gas! That's all three of the states of matter!"

Which thing at the beach is a liquid?
Pause for students to mark an answer.

Say: Now turn the page.

Item	Language Level	Performance Objective
1	Intermediate	Students will distinguish among examples of states of matter.

Connection: ELA, RI 4.1: Refer to details and examples in a text when explaining what the text says or when drawing inferences from the text.

Extension Activity

- Have students write the words *solid* and *liquid* on index cards. Show different items and have students hold up the appropriate index card. Give examples and non-examples of gases. Have students raise their hands if the examples are true. For example: Gas fills up a balloon. Milk is a gas. [1]
- Use water in an electric kettle to demonstrate how water changes from a liquid to steam and back to liquid. Have students identify each state of matter during the process. [1H]
- Conduct simple experiments and have students form hypotheses for the results. For example, put an ice cube tray full of water in the freezer. Ask students what will happen to the water. Leave an ice cube in a dish on a desk in a shady area of the room and another in a sunny area. Ask students which will melt faster and why. [A]

26 United States Government

ACADEMIC SOCIAL STUDIES

Say: The Fifth Amendment says a person cannot be put on trial for a serious crime if there is not enough evidence for the trial.

The Sixth Amendment says that a person must receive a speedy and public trial by jury in the area where the crime was committed.

Standard	Language Level	Performance Objective
Academic Social Studies	Intermediate	Students will give examples of freedoms they have based on the Bill of Rights.
Academic Social Studies	Intermediate High	Students will evaluate the effect of the Bill of Rights on themselves and others.
Academic Social Studies	Advanced	Students will explain the importance of the Bill of Rights, both historically and currently.

Connection: ELA, W 4.1: Write opinion pieces on topics or texts, supporting a point of view with reasons and information.

Say: Think about these six amendments. Why do you think these amendments are important? Why do you think that the founders of America wrote them? Write a four-paragraph essay describing why they are important and how they help the people of the United States. Use details to support your writing.

Now turn the page.

26 United States Government

The Fifth Amendment says a person cannot be put on trial for a serious crime if there is not enough evidence for the trial.

The Sixth Amendment says that a person must receive a speedy and public trial by jury in the area where the crime was committed.

Think about these six amendments. Why do you think these amendments are important? Why do you think that the founders of America wrote them? Write a four-paragraph essay describing why they are important and how they help the people of the United States. Use details to support your writing.

Plan Your Writing

Think about these questions to help you get ideas for your essay:

- What do these amendments allow me to do?
- How might these amendments affect other people?
- How can these amendments keep people safe?
- What types of things would happen in the American people when America was ruled by England?

Organize your ideas. You can write notes, use a graphic organizer, or make an outline on a separate piece of paper.

33 Health and Safety

CONVERSATIONAL LANGUAGE

Say: Now listen to the teacher ask Mia a question.

The teacher says, "Mia, how can you stay safe when playing on the playground?"

Now listen to how Mia answers the question.

Mia says, "I should be careful on the playground equipment. I should not push other people on the swings or on the slides."

Instruct the student to turn the page.

Standard	Language Level	Performance Objective
Conversational Language	Intermediate High	Students will describe ways to stay safe at school.
Conversational Language	Advanced	Students will explain the importance of safety drills.

Connection: ELA, SL 4.4: Report on a topic or text, tell a story, or recount an experience in an organized manner, using appropriate facts and relevant, descriptive details to support main ideas or themes; speak clearly at an understandable pace.

33 Health and Safety

Mia, how can you stay safe when playing on the playground?

Mia says, "I should be careful on the playground equipment. I should not push other people on the swings or on the slides."
